

Beautifully Balanced Wine in Minutes!

Wine Cellar Express is the only patented discovery that miraculously "ages your wine to perfection" in 30 or less minutes!

The **Wine Cellar Express** dramatically reduces the harsh, bitter tannins generally present in young, red wines. The magnetic field "softens" or reduces these tannins in much the same way that aging a wine for several years would eventually accomplish. By utilizing only the coaster, what took years, takes only 30 or less minutes. In just moments your wine is softer, silkier, unmasking luscious layers of fruit flavors. Young, tight wines "open up", the aroma goes from negligible to noseworthy, revealing the true character in each bottle. See <http://www.winecellarexpress.com/>

The **Wine Cellar Express** has been critically acclaimed by renowned wine critics, wine educators, connoisseurs, various media and winemakers as an ingenious invention by Jacqueline Peiffer.

The **Wine Cellar Express** has an attractive sleek curved wood design to blend beautifully on any tabletop setting. Available in natural wood grain, brushed aluminum or our latest - Mahogany finish.

Wood Grain Finish # 402

Brushed Aluminum # 403

Mahogany # 404

Wine Cellar Express comes in an elegantly designed gift box, complete with instructions in 6 languages and a unique gift-giving concept of a multi-lingual gift card...just fill in the blanks.
